

"Cooperation Faces"

Each student was given a different colored piece of paper. Based on their paper, I asked them to draw the different parts of the face: Right Eye, Left Eye, Right Ear, Left Ear, Nose, Upper Lip and Lower Lip. Then, one by one, they came up to glue their pieces on the poster board. We made four faces and discussed how each student in class is an individual, but when put together they make their 3rd grade class.
